

**UL LAFAYETTE COLLEGE OF NURSING AND ALLIED HEALTH PROFESSIONS**  
**STUDENT HEALTH/HOSPITALIZATION INSURANCE CERTIFICATION**

The University of Louisiana at Lafayette College of Nursing and Allied Health Professions REQUIRES that students enrolled in clinical nursing courses have health/hospitalization insurance. In order to meet this minimal requirement, students have two options:

1. retain the UL Lafayette student ACCIDENT ONLY policy, the cost of which is included in the registration fee for undergraduate students taking 7 or more hours in the Fall/Spring semesters and 4 or more hours in a Summer semester. Graduate students taking 6 or more hours in the Fall/Spring semesters and 3 or more hours in the Summer semester are covered under the terms of this ACCIDENT ONLY policy. Please note this policy will allow benefits for expenses NOT covered by other valid collectible coverage as this is a secondary policy.

and/or

2. provide proof of private sickness/accident insurance coverage. All U.S. citizens are mandated by the federal government to carry sickness/accident insurance that meets the guidelines of the Affordable Care Act. Please refer to the university's website, Office of Student Health Services, Student Insurance for additional information regarding insurance coverage options.

As College of Nursing and Allied Health Professions students may be exposed to a number of communicable diseases while caring for clients in clinical settings, they may be at a higher risk than other university students for contracting a communicable disease. For this reason, the College of Nursing requires all students enrolled in clinical nursing courses to maintain updated health/sickness/accident insurance coverage while enrolled in clinical courses.

The UL Lafayette ACCIDENT ONLY Plan provides benefits for a modest premium charge per semester. It is, however, not sufficient to cover expenses for an extended illness. In other words, the policy is supplemental in nature and will not provide comprehensive coverage for an extended period of time. The College of Nursing and Allied Health Professions, therefore, HIGHLY RECOMMENDS that students carry additional and comprehensive health and sickness insurance coverage as mandated by the Affordable Care Act. Please visit the Student Health Services website at <https://studenthealth.louisiana.edu/content/student-insurance> for more information on insurance coverage.

Consult your local telephone directory for names of insurance companies that provide hospitalization insurance in your area. **If you require additional assistance in your effort to retain adequate insurance coverage, contact the College of Nursing and Allied Health Professions Student Services Office at 482-5604 Opt. 6.**

\*\*\*\*\*

I understand that at all times while enrolled in clinical nursing courses, I will carry an insurance policy.

I understand also, that the university ACCIDENTAL ONLY insurance coverage is supplemental in nature and the College of Nursing HIGHLY RECOMMENDS that I retain additional health-hospitalization insurance coverage while enrolled in clinical nursing courses.
