TARGET AUDIENCE
This educational activity is designed for registered nurses working in various practice settings. The content would be of value to any healthcare professional.

LEARNING OUTCOME
To increase the learner’s knowledge of chemical abuse and dependency and to better understand the most current treatment modalities in order to improve nursing care and patient outcomes.

OBJECTIVES
At the conclusion of this educational activity the participant will be able to:
1. Understand addiction and how to identify a patient struggling with this illness.
2. List and describe common behaviors and defenses in patients with addiction.
3. Discuss interventions and education on treatment options for patients struggling with addiction.
4. Review the historical trends of drug abuse.
5. Describe the new, emerging drugs of abuse.
6. Identify risk factors for substance use disorders.
7. Describe behaviors of a nurse with impaired practice.
8. Explain the purpose and components of monitoring incorporated into the LSBN Recovering Nurse Program.
9. Discuss Lafayette’s narcotic issues and the streetwise knowledge needed to help combat the problem from the perspective of law enforcement.
10. Describe the signs and symptoms of a drug abuse patient one may encounter in the emergency room.

COURSE DESCRIPTION
Every day, more than 90 Americans die after overdosing on opioids. Opioid addiction is a serious national crisis and affects everyone it touches. However, opioids are not the only drug wreaking havoc on its abusers. Other chemicals, drugs, and alcohol play a huge role in the disease called addiction. At this program, we will focus on understanding the physical and psychological aspects of addiction – whether it’s alcohol, illegal drugs, or prescription drugs; each can have a detrimental effect on our patients and their families. Expert presenters will focus on identification of dependency, when use becomes abuse, physical and psychological treatment plans, support for nurses dealing with addiction, and the most commonly abused and emerging chemicals and substances in our area.

Louisiana State Board of Nursing – Provider # 9.
To receive 5.0 contact hours, the participant must attend the entire program, and complete and submit the Contact Hour and Evaluation forms.

DISCLAIMER
American Nurses Credentialing Center (ANCC) accreditation applies only to the educational content of the program. University of Louisiana at Lafayette College of Nursing and Allied Health Professions Continuing Nursing Education Program and ANCC Commission on Accreditation does not approve or endorse any product.

SPECIAL NEEDS
University of Louisiana at Lafayette will seek to accommodate persons with special needs. If you have a special need which may require accommodations, please notify Continuing Nursing Education, 337) 482-6882 or email nursing_ce@louisiana.edu five (5) days in advance to make arrangements.

FACULTY
Kerri Cunningham, MSW, LCSW, LAC
Ms. Cunningham is a Licensed Clinical Social Worker and Addictions Counselor. She received her master’s in social work from Louisiana State University. She is the Program Director for Victory Addictions Recovery Center in Lafayette, LA. Ms. Cunningham has 12 years of expertise in all levels of substance abuse counseling from inpatient treatment to private practice. Her holistic approach to treatment is a focus on co-occurring and dual diagnosis with substance abuse clients. She specializes in Dialectical Behavioral Therapy, EMDR, interventions and trauma counseling.

Rebecca Nugent, BS, MS
Ms. Nugent has a BS in Biology with a minor in Chemistry from Nicholls State University and a MS in Biology from University of Louisiana at Lafayette. In 2004, she joined the crime lab and was trained in drug chemistry and later as a crime scene secondary where she displayed skills in an episode of Psychic Detectives. In 2011, she was promoted to drug unit supervisor then manager in 2013 of both the toxicology and drug chemistry units. She has been qualified as an expert 21 times in forensic drug chemistry in state and/or federal court. She has been appointed to the State Epidemiology Workgroup, the Prevention Systems Committee, the Governor’s DWI-Vehicular Homicide Taskforce, and both the State and Regional Area’s Impaired Driver’s Emphasis Teams. She assists in the identification, banning, and education of new synthetic drugs that are a public health hazard along with Poison Control and DHH. She is also part of the team assembled for the Strategic Highway Safety Plan to identify the severity of drug impaired driving in Louisiana.

Barbara McGill, MSN, RN
Ms. McGill has been a nurse for over 40 years with 18 of those years spent with the Louisiana State Board of Nursing. Currently she is the LSBN Director of the Recovery Nurse Program and Monitoring. In addition to assisting nurses into the Recovering Nurse Program and monitoring them for compliance, she also monitors nurses who have Board Orders which may not be drug or alcohol related. Ms. McGill’s previous nursing roles include former Associate Nursing Administrator and Clinical Director at Charity Hospital in New Orleans and Director of Nursing at River Oaks Hospital, among others.

Sergeant Karry Falcon, NR-EMT-P
Sgt. Falcon has worked for the Lafayette Parish Sheriff’s Office for twenty years. During this time, he has had several roles on the Lafayette Metro Narcotics Task Force including Narcotics Investigator, DEA Task Force Agent, and currently as the Narcotics Supervisor. Sgt. Falcon is also a trained paramedic and is part of the S.W.A.T. team as an Operator/Tactical Medic and on the Search and Recovery Unit as a diver and a Dive Team Medic.
